

# JPTWML: Solving Java Memory Leaks

## Exercise 3:

### Session Leak

---

**Purpose:** Resolve a memory leak.

Stocks is a simple Jetty web application that is used to view stock prices

- 1) Open a terminal window and cd into jptwml/exercise3.
- 2) Compile and start jetty using the compile and appServerStart scripts.
- 3) Test the app using the URL <http://localhost:8080/lab/stock>.
- 4) Start JMeter using the provided jmeter script.
- 5) In this exercise you can use the tool of your choice or all of the tools if you wish to triage the leak
- 6) Run the JMeter script
- 7) Confirm the leak
- 8) Triage the leak, resolve and confirm the solution
